***Reported only if data were available for 10 or more sections. Comparison means calculated using combined fall, winter, spring, and summer CPE SRTI_Online data for AY2014-AY2016. A comparison group mean is the grand mean of a set of section means or standard deviations (SD) not the mean or SD of student responses pooled across sections. Undergraduate sections are the comparison group for 500-level courses. Dept=CPE courses from the same department or course subject; College=CPE courses from all other departments in the school/college within enrollment category; Campus=All CPE courses combined. When comparison data were collected in AY2014, items 1 and 4 were as follows: Item 1: Each session was well prepared by the instructor; Item 4: Each session was well organized.*
