#	What is your general impression of the course?
1	
2	i like this course and its what i expected going in to it, i like how we talk about multiple areas of philosophy instead of focusing on one of them
3	work load is very doable and interesting information
4	Loved it.
5	
6	I really enjoyed this course and I thought Professor Dixon was an amazing professor.
7	First time I took a philosophy class. Although I've had trouble with attendance, this has still been my most enjoyable class this semester. Professor Dixon is a wonderful teacher and because of him, I will take another philosophy class in the near future.
8	Great course, barely needs to improve.
9	
10	I really like the way the course is structured and recommended this class and professor to my friends. I came in knowing nothing about philosophy but now I am possibly interested in pursuing a minor in it.
11	I thought the class was done really well. There was a nice balance of student engagement and teacher instruction. The instructor was committed to each of the students and their understanding of the material. I really enjoyed the material itself and the way that it was presented. Because of this class, I plan on taking more advanced philosophy classes in the future and possibly minoring in the subject.
12	The course opened my mind to new ideas and ways of thinking.
13	I thought it was a great course!
14	The course was really interesting and engaging for almost everyone in the class
15	I loved this class. It opened me up to my new major and a different way of looking at life. Cliche to say but it defiantly changed my what my path will be here at Wake.
16	Good course

#	What aspects of the course would you advise your instructor to retain? What suggestions would you provide to your instructor for revisions that would produce a better learning experience for you?
1	
2	retain the review of the previous class the the beginning of each class, liked when we watched videos about what we were talking about, liked when were able to talk with the people around us, maybe a suggestion would be do diversify class time more, meaning lecture for a bit, then watch a video, then talk in groups, then lecture some more
3	sometimes the lectures can get long and lose students attention so maybe mix in different activities
4	I would advise the instructor to maintain the revision of previous content before approaching new content.
5	
6	The reading questions were really useful in helping me understand the reading material. Maybe making the lessons a little more interactive would be my only suggestion.
7	All of it. I would also like to mention that group projects would be fun and engaging.
8	Already provided to him in person, hate to repeat.
9	
10	I think that it would be extremely beneficial to keep the reading responses. I also enjoy the review at the start of class and how the material is presented in a broken down and easy to understand format. I think it would be helpful to have more class time spent preparing for the midterm and final assessments than just one. Aside from that I cannot think of anything else!
11	I really enjoyed that the professor would begin every class with a recap from the last class and that he discouraged the use of laptops in class. I think my biggest suggestion would be adding a little more variety to the day-to-day activities. Towards the end of the class we started watching videos in class which helped switch up the pace during the period and keep me engaged.
12	I would hope the instructor keeps the grading system the same and the reading question assignments were helpful. I also enjoyed the recap of the previous class at the beginning of each class. I would suggest the instructor to change up the format of class from time to time so that students can stay engaged more in conversation.
13	n/a
14	The powerpoint presentations were really helpful both during and after lecture. I don't have any recommendations for revisions.
15	I would advise him, if anything, to allow more discussion between students! It was very interesting to see what everyone else thought.

16	I like the option of writing a short paper instead of taking the exam. I think it would be good if the instructor did not make last-minute changes in the grading of the class (removal of RQ 6) in order to meet students' expectations

7	Nope.
8	Great course, great professor, don't ever cancel.
9	I really have no critiques of Professor Dixon. He is an incredibly dedicated, well-read, and knowledgeable professor. Each class he came prepared and alert, eager to answer any questions we may have. He created an environment where I felt comfortable asking any sort of question, whether it was on a past lesson or the reading we had for that day. At the start of every class, Professor Dixon would give a summary of the reading covered in the last class. I found this to be really helpful as I was actually able to see how the class progressed overtime and had a much more seamless understanding of the topics.
