### 1. Comment Section

#### What is this instructor doing that helps you learn in his/her class?

- he requires every student to participate in class sessions and he thoroughly lectures and explains the reading material that at times were very difficult to understand
- He made sure the students were engaging during lecture and helped students feel comfortable.
- He goes through the lessons, one step at a time and does not rush. If one is having trouble understanding the concept, he will then find simple examples to illustrate the meaning of what is being taught. The study sheets that he hands out are very helpful.

#### What could the instructor do to create a more positive learning environment for students?

- nothing in my opinion
- He can continue with his teaching style and demonstrate more connections with present life events.
- Nothing, it is already a positive learning environment.

#### Additional Comments:

- Think Mr. Dixon is a great instructor he is very educated in the subject and makes it a pleasure to be a part of his learning experience.
- Great instructor. He shows concern for student's ability to learn in order for them to succeed.
